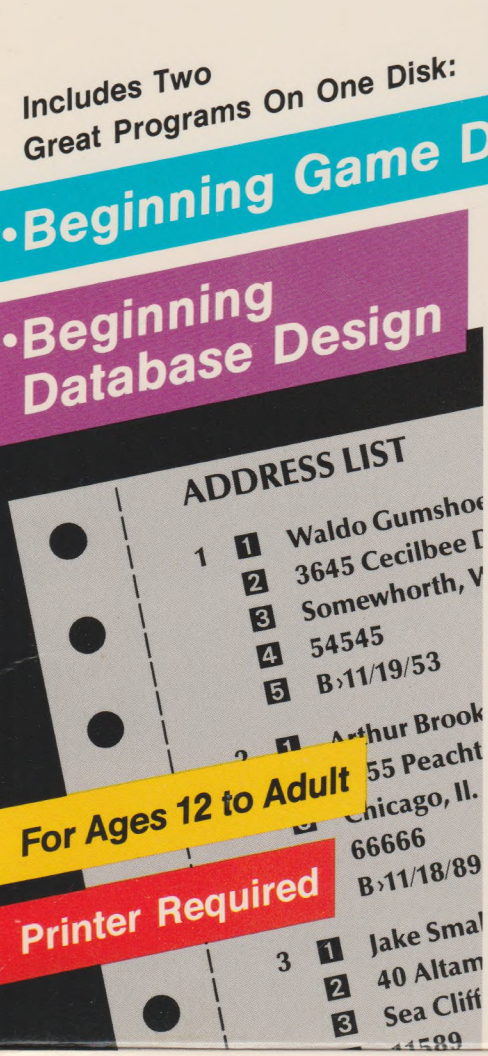
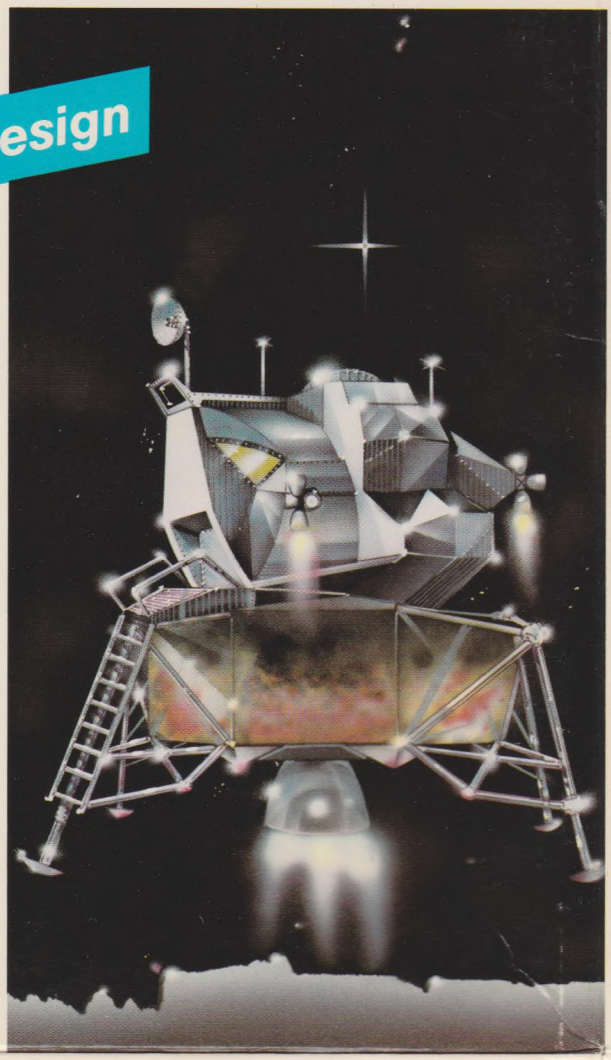
- **Beginning Game Design**
- **Beginning Database Design**





For Ages 12 to Adult

Printer Required

Introduction To Programming 1

CAT. NO. VED105

VALUEWARE™

At A Glance:

So now you have your own personal computer, and you want to learn how to use its mysterious powers. INTRODUCTION TO PROGRAMMING 1 will quickly and easily introduce you to the fascinating world of programming.

Beginning Game Design™

Features: You will take part in the actual design of "Lunar Lander," a challenging game of skill that includes moving graphics, sprites, and sound.

INTRODUCTION TO PROGRAMMING 1 shows you, in detail, what should go into a good game program. Aspects covered include display design and animation.

Includes five skill levels.

Beginning Database Design™

Features: You will take part in the actual design of Database Manager, a program that allows you to use your computer to store and retrieve general information. Database Manager can be used for anything from mailing lists to date reminders.

Subjects covered in INTRODUCTION TO PROGRAMMING 1 include:

- The Use of Disk Storage
- Searching Techniques
- Menus
- Subroutines
- Special Input Routines
- FOR/NEXT Loops
- Use of Multi-Dimension String Arrays
- ...and much, much more

The manual is written in plain, easy-to-understand English. And, the 8-step approach to program design is fully explained and can easily be applied to your future programming adventures.

Program Specifications:

Language: Basic

Completion Time: 5 to 15 Hrs.

Suggested Age Group: 12 to Adult

Special Programming Skills: None Required

Special Equipment: Printer Required
